

Grains Council of Australia Information Update

Grains Council of Australia – Information Newsletter – February 4th 2010 - #5

Grains Industry Round Table # 2
to be held February 17th 2010 in Melbourne

Business Plan – Request for Comments and Submissions

The Business Plan documents are now publicly available, and comments are being sought and received.

The final draft is Version 5 and contains some changes made following comments received recently.

There are likely to be many of these from across the grain industry and this is welcomed and valuable.

The next Roundtable will be better able to consider the way forward, with a wide selection of comments and suggestions.

It is also likely that many interested people, groups and organisations will not be able to be present at the Roundtable, though would seek to have some input to the process. To this end we would encourage all parties to provide feedback, input and suggestions.

When received, these suggestions will be placed on this website so that everyone can consider them before the meeting.

With only 2 weeks until the Round Table the sooner we can receive any input the better.

However, please assist by including in any submission the following;

- What the suggestion or submission is seeking should be clearly outlined
- How it improves an area or in general the proposed Plan
- What benefits or advantages are contained in the suggested change
- How these suggestions will benefit grain producers of Australia.

Input can be made *via* email to GCA@grainscouncil.com or to alan.umpers@bigpond.com

We have already received very good suggestions which have been incorporated into version 5 of the business plan. These are merely alterations to some items within the plan, and have not altered the basic principles.
